## Building your Hula Hoop

1. Add beads, beans, sand, or rice to the inside of the PVC pipe
2. Dip one side of the PVC connector into the dish soap
3. Insert the PVC connector into one end of the PVC pipe
4. Dip the other side of the PVC connector into the dish soap
5. Insert the PVC connector into the open end of the PVC pipe
6. Push both ends of the PVC pipe together
7. Cover the connection with tape to secure
8. Decorate the outside of the PVC pipe with decorative tape

Enjoy your Hula Hoop!
